

ARREST OF GREENSBURG MAN SOLVES DEAN ROBBERY HERE

Boaz Demaree Believed at Head of Band of Thieves Operating in This Section of State

PUT UNDER A \$20,000 BOND

Mrs. Dean and Daughter Identify Articles Stolen From Their Home August 22, 1919

LOOT IN SEVERAL HOUSES

Sharer and Moore of Carthage Also Find Merchandise Stolen From Their Store Nov. 25

Boaz Demaree, a man with the appearance of being a bold outlaw, was arrested yesterday afternoon in Greensburg by the Greensburg police, Big Four railroad detectives and Sheriff Jones of this city, and was arraigned this afternoon before Judge Sparks on burglary charges. The arrest came after a long search for the man who entered the residence here of Dr. D. H. Dean 915 North Main street, on August 22, of last year, while the family was in the north spending a few weeks. The same man is also implicated in the robbery of the hardware store of Sharer and Moore in Carthage on November 25 of last year.

Demaree was arraigned this afternoon on burglary charges, being charged with first degree burglary at the Dr. Dean residence and with second degree burglary at the hardware store.

When arraigned at three o'clock on four charges, he did not enter a plea, and Judge Sparks placed his bond at \$20,000 on each charge, making it \$80,000, which he was unable to provide.

The Carthage firm identified razors and pocket knives by their firm's price marks which were never erased, and Mrs. Dean and daughter Miss Janet went to Greensburg and brought back a small portion of what was taken here in August, and what was recovered was found in several different houses, which shows that a gang of outlaws, have been operating in this section of the state.

The dress materials brought back were easily identified, and in each case the silk dresses and valuable garments had been stripped of the buttons, lace and other portions. It will be recalled that much silverware was taken from the home, but none of this was found, as it had probably been disposed of. Some silverware was found in one of the houses, but it could not be exactly identified.

The hardware men easily recognized their merchandise as it still bore their own cost and selling prices. The arrest of Demaree will probably reveal a gang of outlaws, in the opinion of the officials in Decatur county. Residences and business houses in this part of the state have been entered frequently, and suspicion has been centered on these people for some time.

Big Four railroad detectives have followed them in their work, and yesterday morning Detective Neal of the railroad notified Sheriff Jones that he and the Greensburg authorities were ready to conduct a raid upon the house.

Sheriff Jones went to Greensburg, Mrs. D. H. Dean and daughter of this city accompanying him, so that they could identify the stolen articles.

A search warrant was secured and the officers all made their way out to the house in the northwestern part of Greensburg. No one was at home, and the officers proceeded in their search and unearthed a house full of articles which evidently had no business there.

The articles included expensive wearing apparel, silverware, jewelry, table linen, tools, new razors and knives and numerous other articles, which the officers believed were never purchased.

During their investigation Demaree entered the house and in an angry mood threatened the lives of the officers and made his way to a drawer in which he kept his revolver. He was prevented from reaching it, and Sheriff Jones opened the drawer and got possession of the gun.

The sheriff was displaying the weapon today. It was a large .38 that resembled a machine gun, and the bullets used would no doubt penetrate a brick wall.

Jones ordered the Greensburg police chief to place the man under arrest, and he was handcuffed. Before Demaree had entered the house Mrs. Dean had identified much of the stolen property, which was the foundation for his arrest.

SEVENTY GUESTS EXPECTED Horse Thief Detectives Association to Have Kid-Roast Tomorrow

At least seventy members of the Rush County Horse Thief Detectives association are expected to attend the kid roast which will be given in the Knights of Pythian building tomorrow evening, judging from the number of responses which have been received to the invitations.

W. J. Hingate of Indianapolis, former president of the state association, will deliver the principal address at the banquet, which will be served by the Pythian Sisters. The kid has been donated by Charles Phillips and Frank Tribby of near Arlington, two boys who owned the kid in partnership.

FIFTEEN CASES OF MALADY REPORTED

Health Officers Say There is no Cause For Alarm Though More Flu Patients Are Found

TEN OF THEM IN RUSHVILLE

Five Are Confined to One Family and Cases Are All Mild—Precautions Are Urged

The numbers of influenza cases were increased in Rush county today, according to reports received by the city and county health officers, and while the number is increased, the cause for alarm is not greater, as the cases are either under control, confined within the same family, or are widely separated.

Ten cases reported in Rushville, show that five are in the same family, and the report was delayed as the attending physician wished to see if the cases would develop into influenza before making the report.

The five children of Ed Ratekin, 936 West Third street were pronounced as having the flu, one son, Albert, aged 7, having developed pneumonia in a mild form. The other children are Bert, age 11, Robert 5, Raymond 15 and Harold 3.

The other patients in Rushville are Edward Mullins, 312 West Tenth St.; Mrs. Ethel Fleehart, 720 North Morgan; Ethel Gallimore, 624 West Ninth; B. A. Black, 533 North Jackson and Nolan Mathews, with no local address given.

Dr. E. L. Wooden, county health officer, received five reports. Mrs. Oliver Mock and son Oliver, Jr., continued on Page Six

SPECIAL JUDGE IN THE COLLINS CASE ALLOWED

Defendants Unable to Get Continuance on Their Petition and Find Another Way For Delay

DECATUR JUDGE IS APPOINTED

Aside from only minor business the second day of the February term of court was quiet today, as the case of the State against Cecil Collins of Shelbyville, which was set for today has been continued until a later date.

The defendants filed a petition yesterday for a continuance in the case, but Judge Sparks overruled the petition. In the afternoon they filed another petition asking for a special venire of 25 men, and Judge Sparks granted a special venire of 12 men.

Later in the afternoon a petition was filed asking for a change of judge. In order to delay the trial it is said, was possibly the only reason for asking for a change, and several judges were named, after which both sides decided upon John Crain of Greensburg. The case will probably come up either the last of this term or not until the May term of court.

Gollins was indicted in Shelbyville on charges of embezzlement and after several attempts to try the case in Shelbyville, it was set here on a change of venue.

MEMORY OF 8 MEN WILL BE HONORED

French Memorials For Next of Kin of Rush County Soldiers Who Made Supreme Sacrifice

LEGION WILL PRESENT THEM

Presumed in Due Time, Diplomas Will be Received For Relatives of All Men Who Died in War

The memory of eight Rush county boys who gave their lives during the world war will be honored by the French government, which will present a French memorial diploma to the next of kin of all who died in the service, between April 6, 1917 and November 11, 1918.

Eighteen Rush county soldiers made the supreme sacrifice, and it is presumed that in due time one of the French diplomas will be given to the relatives of each one, but only eight have been received at the Newcastle army recruiting office ready to be forwarded to Rushville.

Rush post of the American Legion will have charge of the presentation of the diplomas with appropriate exercises, probably on Washington's birthday. It has been recommended that they be held on this holiday, if feasible, by the American Legion wherever there is a post, and it is expected that the program will be followed here as suggested.

The officers of the Legion post here have not been officially notified of the arrival of the diplomas at Newcastle, but will get in touch with army recruiting officers there and arrange for them to be sent here in time to make arrangements for their presentation.

The eight diplomas are for the following Rush county people:

John P. Dawson of Glenwood, whose brother Murray R. Dawson, Company K, 26th Infantry, died in France, July 19, 1918 from the effects of wounds received in action.

Wade H. Innis, Milroy, whose son, Private Marshall Innis, of a machine gun company, who died of wounds received in action in France, October 29, 1918.

Mrs. Sallie L. (Cassius) Pattison of Manilla whose son, Private Cyrus E. Pattison, of an infantry regiment, was killed in France during an engagement October 2, 1918.

Mrs. Carrie Avery (now Mrs. Carrie Neal) 425 Cottage Ave., Rushville, whose son, Private Herbert Neal of the 334th Infantry, died of pneumonia in France November 6, 1918, after having been sent to the hospital with machine gun wounds.

Mrs. Edith B. McKee of Rushville whose son, Private Raymond Hamilton of the Rainbow division, died of pneumonia in a hospital in France December 8, 1917.

Mrs. Flora (Will) Pea of this city whose nephew, Private Charles E. Garrison, was killed in action in France during November, 1918.

James Shannahan of near this city whose son, Private James Shannahan, died in France, October 16, 1918 of wounds received in action.

A. J. Cox of this city whose son, Sergeant Ebert H. Cox, Company K, 18th Infantry, was killed in action.

PATRIOTIC DUTY WILL BE HONORED

ACTUATED 134 MEN

FATE OF WORLD IN BALANCE

Special Attorney Dailey Outlines What Government Expects to Prove on Newberry

(By United Press.)

Grand Rapids, Mich., Feb. 3.—"Patriotic duty" actuated 134 men on trial here for election fraud "to do all in their power to procure the election of Newberry to the United States senate in 1918," Attorney James Murfin declared today in the defense's opening statement.

Murfin's statement was in answer to claims made by Frank Dailey in charge of the prosecution, picturing his campaign where large amounts of money were used to purchase votes, buy political support and procure publicity and advertisement.

"In analyzing what these defendants did, the atmosphere under which they did it must be considered," he said.

"Our country was at war. When Henry Ford announced his candidacy on June 14, 1918, the fate of the world was hanging in the balance. The last German drive was at its height. The advancing armies were only 30 miles from Paris and the Channel ports were threatened."

"Americanism was at its very crest," Murfin declared.

"We will prove that what these men did was not for pay but for patriotism," Murfin declared.

"Payments by a committee in charge of the campaign of Newberry were practically always made in cash," Dailey declared today in resuming his statement in the election fraud trial.

Field agents would go to Detroit headquarters and receive cash from the campaign headquarters, no receipts being given.

Class workers who went over the state and stirred up Newberry sentiment received \$200 a month for a salary and had an unlimited expense account.

The government will put its fingers on \$250,000 spent in the primary campaign at one time, Dailey declared.

Special Attorney Dailey, in outlining what the government expects to prove in the alleged fraudulent election case, said that the scheme planned by Senator Newberry and his close friend, Frederick Coyle of New York, was to "purchase the United States senatorship."

Other co-defendants were drawn in after the plans were more fully developed, he said.

The records of Newberry's campaign committee were found to be very unusual, said Dailey's statement.

He told of huge sums which were given by Campaign workers. Dailey declared that Newberry's campaign workers contributed large sums of money to church workers in order to gain the influence of the members.

Every seat in the court room was occupied and there were knots of spectators gathered about the doorway to listen to the address.

NEW ASSESSING BLANKS SENT HERE

If They Are Retained as Permanent Form, Property Owners Must Give Extra Information

IN MANY RESPECTS THE SAME

Every Item of Personal Property Must be Listed—Amount of Fire Insurance Must be Given

The state board of tax commissioners have compiled a new form of assessing blank for the personal property schedules, to be used this spring by the township assessors and if samples of the blanks sent to the county auditor here are retained as a permanent form, the assessor is going to know more about individuals than he ever knew before and by the same token, the property owner is going to tell more about his personal affairs than he ever divulged to a taxing official, unless it is the federal income tax collector.

Along with the new personal schedule blanks, a new form of a book to be used by the assessor in making returns and figuring the totals will be used, together with a lot of new forms for submission of facts to the state board.

But the personal property schedule is the one that attracted attention today in the auditor's office. The schedule is designed to check up the statements of the tax payer. There will be no way under the new blank to put in your personal property at \$50 or \$100 and get away with it without showing the assessor.

In the matter of household goods, the new schedule provides for the listing of every item of household furniture and the establishing of a value on each item. In the past, the taxpayers simply put in household furniture at a lump sum. This will not be the case in the future. The personal property list includes everything, and the old order of placing household goods on the tax assessment sheet in a lump sum passes out of existence with this new form.

Another new question the household is called upon to answer is regarding the amount of fire insurance carried on the household furniture listed in the assessment sheet. In this question taxing officials saw a check on inconsistent values placed on household goods. For continued on Page Two

DONALD BALL TO TAKE PLACE HERE MARCH 1

Former Rush County Man Is Employed as County Agricultural Agent by Board of Education

DETTRICK TO STAY A MONTH

The county board of education, at its regular monthly session yesterday afternoon, reconsidered the resignation of Marion F. Detrick, county agricultural agent, which was to become effective February 1, with the understanding that he would not leave until March 1, and voted to employ Donald Ball of Washington, Indiana, to succeed him here. Mr. Ball, who has been Davies county agent, will take up the duties of the office here when Mr. Detrick leaves.

Although there was some sentiment among the trustees that decision in the matter should be withheld another month until the sentiment of the farmers could be learned better a majority felt that most of the farmers were in favor of a county agent.

After it became known that Mr. Detrick intended to resign the board of directors of the Rush County Farmers association, after having first attempted to persuade Mr. Detrick to remain, endorsed Mr. Ball and agreed his appointment by the county board. The directors also agreed to some additional statement taking issue with Sims the day after the county board on medal awards which defended his position. Mr. Ball was born and reared in Rush county and has been a member of the board of directors of the county board of education.

RUSHVILLE BOY IS CITED FOR GALLANTRY

Citation Issued to Roy J. Harrigan For Bravery Under Fire Near Cantigny, Received by Mother

TO BE DISCHARGED FEB. 17

Roy J. Harrigan, Battery C, Sixth Field Artillery, son of Mrs. William Lewis, 434 West Second street, has been cited for bravery under fire near Cantigny France, according to word received here by his mother, to whom he forwarded the citation.

Private Harrigan is now at Camp Taylor, Kentucky, and will be discharged February 17, after serving a three-year enlistment in the regular army, having entered the service before war was declared. He will be in the reserve for four years after being discharged.

The citation is as follows: "Headquarters First Division, General Orders No. 1, January 1, 1920.

The division commander cites the following officers and soldiers for gallantry in action and especially meritorious service:

Horseshoe: Roy J. Harrigan, Battery C, 6th Field Artillery, who was wounded in action near Cantigny, France, May 26, 1918.

Yellow Mustard for Sore Throat, Tonsillitis

Old fashioned remedies are often the best. Yellow Mustard, in the form of plaster or poultice, has been used for generations for soreness, inflammation, congestions and swellings with the most excellent results but — it blistered.

Heat eases pain and Begy's Mustarine made of pure yellow mustard, together with other pain relieving ingredients, is just as hot, but quicker, cleaner and more effective and cannot blister.

When your throat is sore, when you have pleurisy, bronchitis or a pain-shooting chest cold you can get speedy and lasting relief with this most effective preparation because heat eases pain. Every druggist has it — 30 and 60 cents at druggists or by mail, S. C. Wells & Co., LeRoy, N. Y.

CARE IS URGED IN SELECTION OF SEED

Farmer Who Will Sow Wheat
Fields to Oats and Barley are
Warned by M. F. Detrick

ADVISES GERMINATION TEST

The loss of the wheat crop by the fly on many farms has caused farmers to consider sowing wheat fields to oats and barley, according to County agent Detrick, who says care should be taken in selecting seed. Experiments show wide variation in yields of different varieties of oats and barley.

The increase in yield to be obtained from the use of the best seed is the easiest money that a farmer makes. The increased cost of good seed is made up many times by the increase in yield.

Another factor to be considered in the selection of seed is germination. Disappointing stands are frequently due to low germination. A germination test is easily made by placing a few grains of the seed to be tested between pieces of cloth or blotting paper on a plate and turning another plate over the blotter. If the seeds are kept moist and warm for 10 days the test can be read. If this simple test is made on all seeds sown this spring many farmers will be saved unpleasant embarrassment, Mr. Detrick says. He reports having just finished testing two samples of oats intended for seed, both of which tested less than 25 percent germination.

stance if the insurance policy is large and the household goods listed low, taxing officials will probably be justified in believing the property has not been assessed at its true cash value, as is provided by the law.

In other respects, the form is practically the same as the old form. The most radical change is in the manner of listing personal property. Some articles of personal property, such as pianos, talking machines and sewing machines, were always listed separately, but the new form provides for the listing of every item of furniture.

The farmer is also hit by the new form, in that all of his farm implements must be listed separately and a value placed on each item. The new form also provides a space for enumerating a man's debt in claiming credit for deductions.

The new form will take a longer time for the assessors as there is more questions to be answered and there is no haphazard way of listing the personal property.

tion in France July 18, 1918.

By arrangements with the French government and the war and navy departments the presentation will be made through the local posts of the American Legion. L. Russell Newgent, state adjutant of the legion, has instructed posts to get in touch with the recruiting stations and ascertain the number of memorials they are to present. In many places public exercises will be held on Washington's birthday by the legion posts when the dipomas will be presented. The legion has also sent out a program to be followed at these public meetings.

The certificates show a group figure placed on a cenotaph on which is engraved in French the signature of President Poincare of France and "To the memory of _____ of the United States of America, who died for liberty during the great war the homage of France." The inscription at the top is from a poem by Victor Hugo and translated reads: "The people should come to pray at the graves of those who died for their country."

TOURNEY FOR 3 DISTRICTS, PLAN

Rushville and Liberty Will Represent This Section in Invitational Basketball Meet

TO BE HELD AT NEWCASTLE

Tournament Will Likely be Held Some Saturday Afternoon and Evening Next Month

The Rushville high school basketball team may have a chance to take part in another invitational tournament, the date of which has not been set. A story appearing in a Newcastle paper tells of the plans that are on foot in that city to invite two of the leading teams in each of the three eastern Indiana districts, making six teams in the tournament, playing all of the games in one day. Following is what the newspaper article said:

"The holding of an invitational basketball tourney among the leading high school teams of the three districts of central-eastern Indiana at the Newcastle Y. M. C. A. next month has been proposed. It is planned to include the foremost teams of the Muncie district, of the Newcastle district and of the Rushville district. It is thought that much interest would be aroused in the meet and much dope on the comparative strength of the three districts would be generated.

"The schools planned to invite to the meet are Muncie and Hartford City, of the Muncie district; Newcastle and Spiceland of the Newcastle district and Rushville and Liberty, of the Rushville district. These schools are the recognized leaders in basketball in their respective districts and it is thought that the winner of the meet would have a good claim to the championship of the central-eastern Indiana. This championship of course would not hold good if the annual state tourney in March upset the dope.

"The meet is planned to be played off on a Saturday afternoon and evening. Four contests would be staged in the afternoon and the final game put on in the evening. The six teams would be paired off for the first three games by lot. After these games have been played, and three teams eliminated, two of the winners would be chosen by lot to play a fourth game.

"The winner of this would meet the remaining team in the final game of the tourney.

"Plans for the meet have already been approved by the Y. M. C. A. and if the sanction of the state high school athletic association can be gained invitations will be sent out

The Doctor Says:

"You Never See Aged Fat People"

The physician is telling these two patients, each of whom feels "more or less upset most of the time," that if they reduce their weight they will become healthier, more contented—and longer lived.

Overstoutness imperils the health in many ways. The accumulations of adipose tissue packed around the vital organs, cause serious disorders, one of the most dangerous being the liability to sudden HEART FAILURE. If you are corpulent, you know the strain upon your heart, particularly when compelled to undergo some unexpected activity. Your life is no stronger than your heart. Don't risk untimely death. Ask any physician what this means!

REDUCE WEIGHT HAPPILY!

Fat people are often victims of apoplexy, collapse from heat or sunstroke. The risk of accidents is greater than among persons of normal weight. When fat people become ill from almost any ailment their risk of death is greater. And you want to live!

Adiposity dulls the mental as well as the physical processes. It impedes progress toward social, or professional, or business success. It is the foe to efficiency, symmetry and personal beauty.

Become slender! Do it by the best self-treatment in the world. Follow the pleasant and inexpensive

Korein system by taking OIL OF KOREIN and applying the simple seven directions to your own life. Easy and satisfying. No thyroid, no salts, no calomel; eat all you need, no tedious exercising. The Korein system is a delight to overstout persons who have the ambition and good sense to reduce their size.

Obtain Oil of Korein in any busy drug store. The directions of Korein system accompany it; also the \$100.00 GUARANTEE that you will reduce 10 to 60 lbs., or more (whatever you need to), or your money refunded without hesitation upon your request, as specified. This is the genuine weight-reduction treatment that you have been seeking!

BECOME SLENDER NOW!

Weigh yourself and use the tape measure before starting. Keep a record of your reduction from week to week. Listen to the pleasant remarks of your friends when they observe how much more attractive you are becoming. If you have been refused life insurance because of your excessive fatness, you may soon be accepted as a "good risk."

Sparkling eyes, sprightly step, keenness of mind, suppleness, symmetry in figure, virility, vitality—worthwhileness in life—await you! Adopt the delightful Korein system. Make the start to-day. Add years and happiness to your life.

One of these two fine old trees, the one on the left, was entirely destroyed by a terrific wind storm which swept over Bloomington recently. Over two hundred years old, they have watched the building of the institution, and for thirty years have stood guard over the sacred

Board Walk. The twin trees were known and admired by generations of students, especially those who walked with their "dates" to and from Sorority Row. Celebrants at the University's Centennial next June will miss one of these "sentinels" very much.

Rush County's Response

The people of Rush county have
let it be known how they feel on the
Armenian relief question. The first
report in the campaign to "save an
orphan" spoke loudly enough and
answered the critics who have found
fault with the efforts which have
been made to raise money for the
war sufferers of Europe.

There are still plenty of generous
people left in Rush county who
want to help save the life of a little
Armenian child, who has been made
an orphan through the persecution
of the Turks.

No one can question the stories
which have been told of the condi-
tions existing in Armenia. Every
person at all familiar with the cir-
cumstances, says they can not be
exaggerated. They are bad enough.
It is admitted that they call for the
assistance of the prosperous Amer-
ican people who have never yet

failed to answer the call of human-
ity.

The Rushville churches and Sun-
day schools led off with splendid re-
ports and others will be forthcoming
from elsewhere in the county. It
is not a question so much of whether
a Sunday school will be left out
in this charity, but whether there is
a Sunday school or church which is
willing to be left out.

Provisions More Liberal

The person paying a federal in-
come tax this year has several rea-
sons for which to be thankful, not
the least of which is that his income
in 1919 was sufficient to place it
within the taxable list. The normal
rates are lower than for 1918 and
the current act is more liberal in its
provisions than the preceding act.

Prior to 1916 a distinction was
made between only two classes of
taxpayers. A man was either mar-
ried or single, and was taxed ac-
cordingly. The act of September 8,
1916, extended the exemption priv-
ileges in one respect. Recognition
was taken of the fact that many un-
married persons, in the maintenance
of a household, assume the same re-
sponsibilities as a married man. Un-
der the 1916 act the exemptions al-
lowed a married person were ex-
tended to include the "head of a fam-
ily". A single man, if his net income
for 1919 was \$1,000, or more must
file a return, but if he is the sole
support of relatives by blood, mar-
riage, or adoption, living in the same
house with him, and if he exercises
control of household affairs, he is
granted an exemption of \$2,000.

Still another distinction was
drawn by the revenue act of 1917.
An additional allowance of \$200
was made for each child dependent
upon its parent, provided such child
was under 18 or mentally or physi-
cally defective. The exemption ap-
plied only to the father or mother
who was supporting a dependent
child in his or her household.

The revenue act of 1918 extended
further the exemption privileges.
The additional \$200 allowance now
applies to each "person (other than
husband or wife) dependent upon
the taxpayer, if such person is under
18 years of age, or incapable of
self-support." Thus, for example, if
a man supports his mother, uncle,
or aunt in a sanitarium, he is en-
titled to the 200 additional exemp-
tion, but if he supports his children
at home and his wife in a sanitarium
he receives no additional exemption
for his wife.

Under the 1913 act deductions for
losses sustained outside of the tax-
payer's regular business were not
allowed. The merchant or profes-
sional man who took an unfortunate
fall in the stock market was grant-
ed no allowance for such loss in the
making of his income-tax return.
The act of 1916 allowed such losses
to the extent of gains in similar
transactions. For example, the tax-
payer who, such not being his reg-
ular business, made \$100 in one
stock transaction and in another
lost \$1,000 was required to report the
\$100 gain and could deduct only
that amount as a loss. The 1918 act
provides for the deduction of all
losses "if incurred in any transac-
tion entered into for profit, though
not connected with trade or busi-
ness."

Prior to 1917 deductions for con-
tributions to corporations organ-

ized for religious, charitable, scien-
tific, or educational purposes were
not allowed. Under the current act
such deductions are allowed to an
amount not in excess of 15 percent
of taxpayer's net income.

The normal rate of tax for 1919
is 4 per cent on the first \$4,000 or
net income and 8 per cent on net
income above that amount. As in
1918, the tax may be paid in full or
in four installments, the first of
which must accompany the filing of
the return on or before March 15,
the second on or before June 15, the
third on or before September 15,
and the fourth on or before Decem-
ber 15. Forms for making returns
may now be obtained at the offices
of collectors of internal revenue,
postoffices, and banks. If the tax-
payer's net income for 1919 was
\$5,000 or less, he should ask for
Form 1040—A. If it was more than
\$5,000, he should ask for Form 1040.

payers in making out their returns.

THE CAR OF THE AMERICAN FAMILY

Hupmobile

It isn't its long life, alone, that makes people think
the Hupmobile is the best car of its class in the world.
They are influenced just as much by the car's consistent
economy as they are by the years of continuous good
service. Economy in *The Comfort Car* isn't an indefinite
quantity, but a positive saving which registers itself
every day in every month. By saying, we mean not
only gasoline saving, but tire saving, and that *still greater*
saving which results from marked infrequency of repair.

MASONS TO HAVE PIG ROAST

Master Masons Degree to be Conferred on 4 Candidates Thursday

The growing popularity of pig roast is attested by the fact that another one is scheduled for Thursday evening when Phoenix lodge No. 62, Free and Accepted Masons will confer the Master Masons degree on a class of four candidates.

The degree work will begin at 3 o'clock in the afternoon and continue until six o'clock, when a recess will be taken for the pig roast which will be served at six-thirty. The work will be completed after supper. Only members of Phoenix lodge have been invited to the pig roast because the local lodge can not accommodate members of other lodges in the county due to the size of the dining room.

"Phil For Short" at Mystic
"Phil For Short," a six-reel comedy drama, together with a short comedy, "Innocent Ambrose," is the offering at the Mystic theater today, and tomorrow "Just a Woman," founded on the successful play of the same name by Eugene Walter will be shown.

That a play from the pen of Eugene Walter possesses all the essential ingredients for an absorbing motion picture production none will gainsay. The dramatist is too well known by theatergoers for his marked talent for injecting ruggedness and "punch" into his subjects.

Having been written by Mr. Walter, produced by Julius Steger and starring Charlotte Walker, "Just a Woman" offers an all-star combination of author, director and star that seldom has been excelled.

Having been written by Mr. Walter and Miss Walker, who, by the way, is Mrs. Walter in private life, have been equally important. Miss Walker has appeared in a long list of famous stage successes, a majority of which have come from the facile pen of her husband. Among the best known of her triumphs have been "The Warrens of Virginia," "The Trail of the Lonesome Pine," "The Wolf," "Two Virtues" and "Just a Wife."

Eugene Walter of course, will best be remembered for his two world famous successes, "The East-est Way" and "Paid in Full."

Anita Stewart Again Tonight

Anita Stewart is shown in practically two characters in "Mind the Paint Girl," a First National feature which will be shown again tonight at the Princess after being shown Monday.

First she appears as the little slum girl, who sweeps out her father's shop and runs errands and does any handy work to help make ends meet for her parents, who are very poor. As the shop girl, she is shown in more or less ragged calico dresses, with her hair hanging down her back and hats of impossible styles. Ignorant and untutored, yet she has a strong heart and battles her way among the roughs of the neighborhood who are very much in love with her pretty face, and try to steal kisses as chance presents itself.

Full of ambition to get-out of the sordid neighborhood and to win to the better things of life, she takes the opportunity of her father's death to move. Then she applies for a place on the stage. After much discouragement, she finally gets a place

WORKS HARD TO AVERT FLU EPIDEMIC

Government and City Health Officials Warn People to Keep Clean.

Stay Away from People with Coughs and Colds.

"Avoid crowds if you want to avoid influenza," says Association for Improving the Conditions of New York.

Keep your hands clean, drink plenty of fresh water; sleep with windows open; eat three uniform meals a day including a good breakfast.

People who have catarrh or frequent colds invite influenza, declares a prominent Kentucky druggist.

The membrane of the throat and nose is raw, sore and tender, and makes a lovely abiding place for germs to thrive and multiply.

He advises an inexpensive home-made remedy that will bring relief in less than a day and will stop all discharge and soothe and heal the inflamed membrane in a few days.

Thousands are making this be neficial remedy at home and any one who has catarrh or a cold can do the same.

Four three-quarters of an ounce of Mentholized Arcine into a pint bottle, then fill the bottle with water that has been boiled.

Gargle the throat as directed and sniff or spray the liquid into the nostrils twice daily. It's a simple way to get rid of cold and catarrh and keeps the nasal passages and throat clean and healthy.

Nearly all druggists dispense Mentholized Arcine in vials containing exactly three-quarters of an ounce, which is all you need to make a pint of this healthful medicine.

SPOTTED POLAND CHINA

Is the solution of all your troubles

The great advance in real estate values has made it impossible to successfully operate our farms with the old time scrubs. The rapid advance in the improvement of Spotted Poland Chinas and the great favor with which the farmer is receiving them, makes this breed a most desirable adjunct to any Rush County farm. That the stock-raising business is the basis of permanent agriculture and the only hope for maintenance of posterity and the future subsistence of humanity is a settled fact.

There is no line of agriculture so instructive or that develops the alertness of the mind or that so animates the farmer as that of mating animals so as to produce a better animal and to watch their development and growth is a pleasure to the man who loves the workings of nature. It beats the hum-drum of grain farming in every respect.

Try it with a Spotted Sow and she will reward and please you mightily.

The Spotted sow with eight to twelve lusty pigs is a pleasure to behold. Those pigs at eight to ten months old weighing from a ton to a ton and one-half are a source of ease stored under one corner of that tiresome mortgage plaster. Try it.

FARMERS RESPOND. YOU'LL NOT REGRET IT. EVERYBODY WELCOME.

Nora Bayes in "Ladies First"

Nora Bayes, the most popular lar singing comedienne on the stage today, is coming to the Shubert Murat theatre, Indianapolis, for a week's engagement commencing Monday, February 9, with matinee Wednesday and Saturday. Miss Bayes is not only the star but the owner as well of a successful musical comedy, called "Ladies First". This musical offering is really a musical farce and it has been very successful under the versatile Nora's mahagement. It ran for six months at the Nora Bayes Theatre in New York and has been popular entertainment in other cities. It comes here with all the earmarks of a New York and Chicago success.

Harry B. Smith wrote the book and lyrics and A. Baldwin Sloane some of the music. Many of the song numbers were interpreted by Miss Bayes. This musical offering is a musicalized version of a successful farce of other days, called "A Contented Woman". It was made especially for Miss Bayes and has been her starring vehicle for the past two seasons. Briefly, it's the story of a woman who enters the political arena and finds out too late to withdraw that her chief opponent is the man with whom she is in love. She makes out an indifferent candidate under the circumstances and when she goes down to defeat she is glad, for in the end she wins by marrying the successful candidate.

She brings with her the company that helped her play to success in New York. There is a chorus of pretty girls, who sing and dance well—all put through their paces by the inimitable Nora Bayes. Reserved seats for the above attraction may be purchased from Hargrove & Mullin.

KNIGHT TEMPLAR MEETING

Senator Gronna Says Government's Interference With Prices Cost Farmers \$2,000,000,000

WANTS ACTION ON HIS BILL

(By United Press.)

Washington, Feb. 3.—Senator Gronna, of North Dakota, today introduced a bill to abolish the grain corporation and government's buying and selling of wheat and terminate the wheat prices guarantee.

Gronna declared in introducing the bill that the government's interference with wheat cost the farmers two billion dollars. He will urge the agriculture committee to take up the bill at once.

Much of the "unrest" among farmers is traceable, Gronna declared to the government's interference with natural laws.

H. T. CALDWELL DIES IN INDIANAPOLIS

Former Rushville Citizen Succumbs to Double Pneumonia Last Night at Parents Home

BURIAL HERE THURSDAY.

Halbert T. Caldwell, aged 32, son of Mr. and Mrs. George Caldwell, died last evening about nine o'clock at the home of his parents, 119 West 23rd street, Indianapolis, of double lobar pneumonia. Mr. Caldwell formerly lived in Rushville with his parents, and from here moved to Indianapolis several years ago.

Besides the parents he is survived by a brother, Frazier Caldwell, a widow and a five year old son. The remains will be sent here Thursday afternoon at 3:25 on the C. I. & W. and taken direct to East Hill cemetery for burial. Funeral services will be conducted in Indianapolis at the home on Thursday morning at 10:30 o'clock.

FIFTEEN CASES OF MALADY REPORTED

Continued from Page One

were in the list. They live northwest of Rushville. Three members of the L. C. Gartin family in Jackson township were reported by Dr. Bowen, Mr. Gartin being one of them and Lloyd Gartin and Mayne Gartin the others.

No cause for alarm was expressed at the fifteen cases reported today and little fear is felt of an epidemic. The cases reported so far are very few in number as compared to other cities and the disease is not in an epidemic form, and is so far remaining in the same family, taking its course the same as a severe cold usually runs through a family.

The physicians wished to warn people today again of the fact that undue exposure in the warm weather will bring on colds, and that the influenza is only a severe cold, which may result fatally for the patient unless proper means of prevention are used.

The cases in Rushville are in a mild form, and the main object in publishing the names is not to arouse the people and cause alarm, because there is no reason for alarm, but the object is to caution people not to visit houses where the disease is, and in this way fight off a spreading of the contagion.

THE "BLUES" Caused by Acid-Stomach

Millions of people who worry, are despondent, have spells of mental depression, feel blue and are often melancholy believe that these conditions are due to outside influences over which they have little or no control. Nearly always, however, they can be traced to an internal source—acid-stomach. Nor is it to be wondered at. Acid-stomach begins with such well defined symptoms as indigestion, belching, heartburn, bloating, etc., will, if not checked, in time affect to some degree or other all the vital organs. The nervous system becomes deranged. Digestion suffers. The blood is impoverished. Health and strength are undermined. The victim of acid-stomach, although he may not know the cause of his ailments, feels his hope, courage, ambition and energy slipping. And truly life is dull—not worth much to the man or woman who has acid-stomach!

Get rid of it! Don't let acid-stomach hold you back, wreck your health, make your days miserable, make you a victim of the "blues" and gloomy thoughts! There is a marvelous modern remedy called EATONIC that brings on such quick relief from your stomach ailment—sets your stomach to rights—makes it strong, cool, sweet and comfortable. Helps you get back your strength, vigor, vitality, enthusiasm and good cheer. So many thousands of sufferers have used EATONIC with such marvelously helpful results that we are sure you will feel the same way if you will just give it a trial. Get a big 50 cent box of EATONIC—the good tasting tablets that you eat like a bit of candy—from your druggist today. We will return your money if results are not even more than you expect.

ANSWERS WAGE DEMANDS

Rail Director Hines' Reply Said to Suggest Three Alternatives

(By United Press.)

Washington, Feb. 3.—Railroad Director Hines today laid before the representatives of the railway employees union the government's final answer to their demands for higher wages.

The text of Hines' answer was not disclosed but it is understood he suggested three alternatives as a basis of settlement.

One of these, it was reported, was a plan for the establishment of a commission similar to the coal commission to consider demands.

Two million women are working every day in American industrial plants.

The whole world contains 710,000 miles of railway, the U. S. States easily topping the list 265,000 miles.

TO HEAR RESULT OF XMAS SEAL SALES

Representatives of State Anti-Tuberculosis Associations Meet Today and Tomorrow

PROMINENT MEN TO SPEAK

New Slogan Adopted is "A Visiting Nurse For Every County"—Plans Underway

Indianapolis, Ind., Feb. 3.—More than two hundred representatives of local anti-tuberculosis associations from all counties in Indiana assembled at the Claypool Hotel here today to hear the story of the successful Red Cross Christmas Seal campaign in Indiana and to plan the development of tuberculosis work in the state to a degree that Indiana hitherto has not known. Speakers of national prominence will appear on the program of the session, which will continue throughout tomorrow.

The expenditure of the sums collected in the state through the sale of the seals in such a manner that the record of the state in 1920 anti-tuberculosis work will surpass that of any other year will be the keynote of the meeting. The new slogan adopted by the state association is, "A visiting nurse for every county" and plans have been under way for some time to assure that each county will find some means of equipping its health work with such an addition.

Speakers from many counties in the state appear on the official program and these tuberculosis workers are drawn from the list of Hoosiers whose organization activities to prevent and cure disease have attracted attention everywhere.

Dr. George Thomas Palmer, famous anti-tuberculosis worker of Springfield, Illinois, will give two addresses during the conference. He will speak Tuesday evening on "Tuberculosis and the Children" and will discuss "Co-operation of Governmental and Extra-Governmental Agencies in Meeting the Tuberculosis Problem" at the Wednesday morning session. Dr. L. E. Northrup, Indiana State Veterinarian, will discuss "Tuberculosis in Cattle" at the afternoon session Wednesday. Dr. Fred A. Dennis of Crawfordsville, President of the State Association, will deliver the annual presidential address at the opening session Tuesday. Miss Mary Coady of Louisville, Kentucky, for six years director of anti-tuberculosis work in Louisville, is another important speaker.

Pageants showing the development of the Modern Health Crusade work in schools of the state and many other interesting features, including the annual banquet, have been arranged.

Do you know why such fine materials are used in a car like Maxwell?

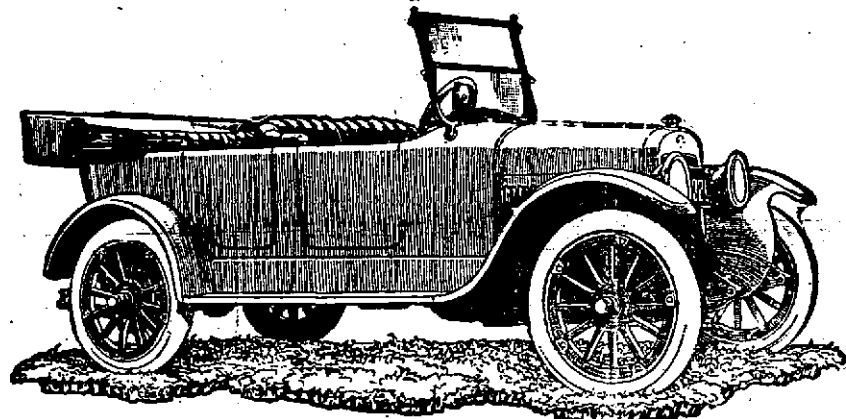

We had to.

Keeping its weight down and yet maintaining strength mean the use of only those extra fine steels and metals.

For a metal that is light in weight and yet strong, as any user of metals knows, is a high priced metal.

The use of these fine grades of steel has been the foundation of the business. Maxwell has grown in numbers and friends. The latter countless; the former well on the road to 400,000.

TERROR CAUSED BY EXTREMISTS

Style of Guerilla Warfare is Used to Expel The British From The Irish Countries

SINN FEINS AT WORK

"Class Propaganda" Fight is Directed Upon The Royal Irish Constabulary as a Whole

By WEBB MILLER
(U. P. Staff Correspondent)

Dublin, (By Mail)—In their effort to drive the British government out of Ireland, the extreme section of Sinn Fein is waging a species of guerilla warfare upon the Royal Irish Constabulary.

The more radical element of Sinn Fein has instituted a remarkable campaign of terrorism and intimidation against the police force urging systematic extermination by shooting from ambush and attacks have been made in widely separated parts of Ireland, resulting in the killing of fifteen policemen and wounding many more.

The extremists advance the argument that the power of the British government depends upon the police force—that the government would be helpless and unable to enforce their laws if deprived of the support of the police. Therefore they intend to make the life of police unsafe and unbearable in the hope that the power of the government will be weakened.

In carrying out the campaign the leaders have started an unparalleled "class propaganda" directed against the Royal Irish Constabulary as a whole. Every argument to stir up bitterness and hatred is utilized. In some sections of the South of Ireland the leaders have ordered their followers not to associate with or speak to policemen and to report

KENP'S BALSAM
Will Stop That Cough
GUARANTEED

the names of any person seen associating with a member of the constabulary.

One of the newest devices to arouse hatred is a "chain letter" scheme.

The following document has been sent out to a number of Sinn Feiners with instructions to copy it four times and send it to four friends, who are to repeat the operation indefinitely.

"They have sold for silver the flesh and blood of their people.

"For money their hands are dipped in the blood of their people. What of the people? Shall they grasp the hand of Cain?"

"They are the eyes and ears of the enemy.

"Let these eyes and ears know no friendship.

"See that there are none who shall associate with them. See you that those who do are treated likewise.

"The blood of our martyrs shall be on them and on their children's children, and they shall curse the mothers that bring them forth.

"And the Lord set a mark upon Cain."

So widespread is the fear inspired that in the hotbeds of Sinn Feinism in the South, the police are avoided like the plague. Even the former friends of the police, who are nearly all Irish, are afraid to be seen talking to them.

Herr Homann Declares That Absence of Beverage Does Not Impair Efficiency of Worker

MINERAL WATER SUBSTITUTE

Says There is Little Drunkenness in Germany Due to Prohibition Movement

By CARL D. GROAT
(U. P. Staff Correspondent).

Essen, Germany, (By Mail)—The myth that the laborer must have his beer to be contented is—only a myth, according to Herr Fritz Homann of the Krupp works.

Herr Homann, who speaks English like an English gentleman and without the tinct of a German accent was my conductor on an interesting trip through the famous steel plant.

"What is the situation as regards drinking among your workers," I asked.

"We abolished beer from our plant before the war, and find that its absence does not impair either the contentment or the efficiency of the workers," he replied. "We used to issue mineral water and milk to take the place of the beer. Of course, issuing milk is now quite out of the question especially when there isn't enough in Germany for babies and invalids. So we give them mineral water instead. It makes absolutely no difference with them that they do not have their beer."

"Of course they can have beer—such as it is—after hours outside the plant, but our beer is, I judge, about the same as American beer at this time as regards strength and quality."

As to the prohibition movement in general, Herr Homann was skeptical of its taking a hold on Germany. "Schnapps," he pointed out, are more expensive than before the war and generally out of reach of the poorer classes, hence there is a marked reduction in the drinking of strong liquor.

"We have in Germany," he continued, "a sort of prohibition movement. There are two groups—the Blue Cross and the 'Gut Templers,' the latter an organization which comes here from the Scandinavian countries. There is in Germany, however, little drunkenness and hence little that these organizations can do. As for beer and wine, they are taken everywhere in Germany. In fact, I have been told that the probable outcome of the prohibition movement in America will be that beer and wines will ultimately be permitted."

Use of automobiles, at least "once or twice a week," are among the many inducements to servant girls and maids in St. Paul.

Our Tire Inspection Service Saves Truck Costs

As a Goodyear Truck Tire Service Station we make it our business to save tire money for the truck owners of this vicinity.

We consider carefully the trucking problem of every customer and for each truck recommend the size and type of tire best adapted to its maximum load and maximum speed. We sell Goodyear S-V Solid Tires and Goodyear Cushion Tires because we believe they are exceptionally good and do wear a long time.

We inspect the tires on the trucks of our customers and in many cases take measures to prolong the life of tires, and, in the aggregate, to save thousands of dollars of owners' money.

Such inspection is made at regular intervals—at least once a month—by our salesmen who turn in a detailed report of the condition of customers tires.

If vital recommendations are to be made, these will be by letter to our customer or to the superintendent of his cartage service. Nothing is left to guesswork. This is a real service. It saves a lot of cartage expense.

Let us send a representative to explain still further about our service.

Imperial Double Disc Harrow

The front and rear sections of this double disc are joined by a single connection bar. All other styles failed as last season proved. This single bar connection allows the harrow to turn without strain or binding. This harrow is the original double disc, invented and patented by the Butcher & Gibbs Plow Co., and can only lawfully be made by them. Many farmers made a mistake in buying double disc last season. You had better investigate and then you will buy the IMPERIAL. Our full line of farm tools are easy sellers, for farmers know them to be the best.

We have a full line of quality implements, such as Rude Spreaders, Oliver plows, Janesville and Black Hawk corn planters, Oliver cuttupackers, Wallis tractors, National one-row cultivators, Ballor two-row cultivators, Osborne binders and mowers, Birdsell wagons, DeLaval cream separators, Fairbanks and Morse gasoline engines, etc.
